Wave - Curved, is available in 2 standard sizes designed to fit the most common show spaces.
These lightweight displays offer an alternative to the traditional Pop Up Display, and have a very slick look.
The Wave series displays can be printed full colour, full bleed and double sided allowing them to be used for islands and bi-lingual messaging. Black Velcro Host Fabric also available.

step: 1

A **A** **A** **B** **B**

⑧ ⑤ ③ ⑥

① ④ ⑨ ② ⑦

There is an elastic cord inside the Straight Pipes (A) / Center support(A) / Curved Pipes (B).

step 2

Connect all the pipes together, according to the sticker number on each pipe. Make sure it is same sticker number before you joint the pipes.
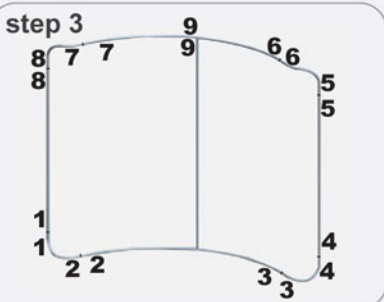

For example: ⑦ on the Corner sections(C) meet the ⑦ on the Curved Pipes(B).

step 4

Put the graphic on the frame, just like you put a pillowcase on a pillow.

step 5

Make sure the teeth of zipper was close to each other before zip it up

step 3

9 9
8 7 7 6 6

1 4
1 4
2 2 3 3

Connect all the pipes together, according to the sticker number on each pipe.

step 6

Hand-tight the LED light (E) on the top of frame, and connect with the power cord.

Please Note:
Don't make the lights too tight on the frame, as it will probably damage the graphic!

step 7

Completed the installation!
